## LOGISTICS, PACKAGING, TOOLING, IT, 3D MODELLING AND CONSULTING NOW COME TOGETHER TO TELL THE AMCO GROUP STORY.

UK, European and International Warehousing and Logistics are the AMCO core business. Our flexibility, ambition and focus on customer needs has led the business to break the mold in what is perceived as a traditional Warehousing and Logistics Service Provider sector and offer a wider logistics portfolio of skills with value added services.

It is our drive, ambition, skills and long term experience, together with an understanding and appreciation of logistical geographical complexities, that enable our AMCO team to 'think like our customers' and provide them with the very best advice and logistics services and vital added value services that combined, make up the AMCO story and the AMCO Group.

# A PROVEN **TRACK RECORD**

## **AMCO – RELIABLE, ECONOMIC UK AND INTERNATIONAL LOGISTICS SERVICES.**

Founded in 1983, AMCO Services (International) Limited has provided reliable, economic logistics services across a wide range of industrial and commercial sectors. Our highly experienced team also specialises in the supply of high quality sequencing and logistics services to the Automotive, Engineering, Retail, FMCG, Defence, Food Services, Construction, and Aerospace industries.

These industries demand extremely high levels of service; accuracy, precision and the multimodal logistics services vital to their operations. AMCO Services has developed sophisticated and robust systems in order to satisfy customers demands and to deliver a full, integrated range of services to the highest standards possible. We aim to provide reliable, fast logistics services with fixed costs. We achieve this through the use of ISO standard work processes, investment in technology and the employment of reliable transport, distribution and warehousing systems.

AMCO Services has developed and established a proven reputation for adding value to our clients' businesses, whilst remaining highly competitive by comparison with other recognised national and international suppliers.

### **THE AMCO FUTURE**

Now as part of AMCO Group - AMCO Services strives to retain its position at the forefront of logistics services by the incorporation of the latest developments in technology and by the use of new developments in logistics systems. We continually review our processes in order to achieve maximum efficiency for our logistics systems. This is particularly critical for 'process driven' sectors such as defence, automotive, aerospace and FMCG. AMCO Services have a clearly defined strategic plan for growth and diversification both organically and through acquisition.

# WE ARE: **WHERE YOU NEED US TO BE**

## AMCO SERVICES

As a 3PL (Third Party Logistics), and as an International Logistics Service Provider (LSP), we are expert at utilising our own experienced teams, as well as strategic partners, and we are able to provide much more than just transport, warehousing and storage.

We have a proven and enviable track record in international supply chain management and logistics, currently providing logistics services to many major Automotive and Engineering OEM. 1st and 2nd tier customers including DENSO, Brose JLR, BMW, FORD, GM, Nissan, Toyota, BMW, Morgan, Lear Corporation, MAGNA, Futaba, Komatsu and Grupo Antolin as well as other notable brands across, Retail, FMCG, Defence, Food Services, Construction, and Aerospace.

We operate from 4 UK locations, with our Eastern European Hub in Romania; and we have strategic warehousing and transport facilities and partners strategically located in major transport locations to service both customer and operational needs.

Globally, our Warehousing and Logistics partner network reaches across the world giving us a presence in major locations serving customers 'locally' and ensuring we are **'where you need us to be'**.

## WAREHOUSING **WHERE YOU WANT IT**

# LOCAL, GLOBAL

## LOCAL TRANSPORT: WAREHOUSING: DISTRIBUTION

The UK logistics arm of AMCO Services has expanded considerably over the past ten years, with the UK transport fleet and domestic distribution services now forming a major part of the business.

From our UK logistics operating centres linked to warehouses, AMCO ensures a same day or 24hr delivery service across the UK. Whatever your business sector, products and required transport capacity, you can count on us to provide the logistics service you require.

Where speed, efficiency and reliability is paramount and deadlines are being pushed to the limits, AMCO are dedicated to giving you a direct and cost effective solution.

### SPECIAL UK LOGISTICS SERVICES

AMCO's UK Logistics offer an experienced and professional service to those clients involved in the most difficult, challenging and time-critical projects which have an element of transportation, procurement or sequencing. Our team of experts can successfully deliver complex projects in all the major business sectors.

AMCO has an enviable reputation as a leading service provider specialising in project and out-of-gauge movements.

- Heavy lift and chartering solutions
- Abnormal load and out of gauge expertise
- 3PL and complete project management
- Export packing and cargo handling
- Express Air Freight and heavy lift charters

# DELIVERING EXCELLENCE IN EUROPEAN LOGISTICS

AMCO offer a comprehensive and flexible system of European Logistics and Transport services across Europe including Air Freight and Air Charter Service, Time-critical Hand Carry and Road Transport.

## Road Transport:

- Double manning
- Special vehicle movements
- Flexible fleet routing
- Any size consignment
- Dedicated European Logistics Team
- Groupage
- Milk runs

We have extensive European road coverage with our Am-Trans Logistics fleet of trucks based in Poland, enabling us to facilitate collections from most areas of Europe; often in as little as an hour of booking. We can transport any size consignment.

Where time is not critical, groupage or consolidation can be the solution. i.e. combining cargo from more than one shipper and/or to more than one consignee for shipment together.

AMCO has regular daily consolidations to most European countries all year round. This option offers a cost-effective solution for all types of shipments and still attracts the same high level of service.

## EUROPEAN AIR FREIGHT AND AIR CHARTER

Our team of European Logistics experts and specialists provide Air Freight and Air Charter services including specialist charters for specialist and general cargo and for consignments of any size.

AMCO offer choice and capacity as an Air Freight partner offering pallet rates for quarter, half and full pallets on both overnight and next day economy services. We can provide direct and indirect flight options to suit timescales and budgets.

## AMCO IN EUROPE

Am-Trans Logistics is our European Logistics operation based in western Poland, Wroclaw. It provides excellent transport links to the North, South, West and East of Europe, enabling Am-Trans to deliver Time Critical services, groupage (LTL) and full load logistics. Am-Trans Logistics supports the growing customer demand and the need to support collections across Europe from suppliers of goods in varying sectors.

**DELIVERING EXCELLENCE**  
- A COMPREHENSIVE & FLEXIBLE  
SYSTEM OF LOGISTIC SERVICES  
ACROSS EUROPE

# LOCAL, **GLOBAL**

## THE GLOBAL PARTNERSHIP IN LOGISTICS SOLUTIONS.

### INTERNATIONAL LOGISTICS

AMCO International Logistics Services harness a truly global network of partners ensuring local knowledge and expertise. These logistics partners work alongside our own multilingual international team where we have 13 different languages spoken in-house. Our business offers logistics solutions via our network of warehouses and logistics locations Worldwide.

The International Logistics Service from AMCO Services covers the full range of international logistic needs – managing freight and transportation of equipment and materials world-wide.

AMCO manage the planning, transport and logistics needed to move a wide range of freight across the globe including automotive components, manufacturing parts, vehicles, raw materials, retail goods, medical equipment and construction equipment.

### AIR, SEA OR LAND

Our team of experts and specialists provide Air Freight services including charters for specialist and general cargo and for consignments of any size. When oceans divide our Sea Freight services are cost effective with most of our consignments being shipped in either TEU (twenty foot equivalent unit) or FEU (forty foot equivalent unit) containers.

### ACCUSTOMED TO CUSTOMS

We can take control and responsibility for customs clearance procedures for import & export including the preparation and submission of documents representing our customer during customs examination, assessment, payment of duty and taking delivery of cargo from customs after clearance along with the relevant documents.

### THE PERFECT FREIGHT FORWARDER

AMCO are very well connected. We specialise in importing and exporting from specific countries, working with our global network of partners, agents and overseas offices for local delivery or pickup in other countries. Freight Forwarding is a key part of our overall AMCO logistics operations and we understand the importance of right time, right place and right service. In May 2017, the FRIEGHTOS survey identified that service is the differentiator for freight forwarding and the importance of expertise.

### PERFECT FOR:

**LAND • SEA • AIR**

OUR **INTERNATIONAL LOGISTICS SERVICE** COVERS THE FULL RANGE OF INTERNATIONAL LOGISTIC NEEDS – **MANAGING FREIGHT AND TRANSPORTATION OF EQUIPMENT AND MATERIALS WORLD-WIDE**

# I.T. MANAGEMENT SYSTEMS

## AMCO'S STATE OF THE ART WMS MANAGES FLOW IN AND OUT OF OUR WAREHOUSES:

- Space Optimisation
- Advanced analytics
- SSCC labelling and other associated labelling to meet customers' requirements
- EDI
- Communicates with your systems using your preferred standard - XML - EDI FACT - ODETTE and Bespoke Formats
- Interfaces with all: from the leading ERP (Enterprise Resource Planning) and finance software packages including SAP (Systems, Applications and Products) used to track customer and business interaction) and others such as System 21, BPICS, Maapics, Oracle and others.

## TOP TMS

- AMCO use a Transport Management System called SOLO PLAN from CarLo, a logistics system, which puts its main focus on transport handling.

SOLO PLAN gives AMCO Services improvement in the transparency, visibility and planning of our transport routing and works from the order entry stage all the way through to the financial invoicing process.

Customers benefit greatly due to live access to the App that operates on both iOS & android devices allowing the customer visibility of their transport 24/7. Live status updates, document exchange and Geofence stages are available. All of this is linked to the expected telematics systems AMCO and our partners all operate within our fleet.

The SOLO PLAN Transport management system lends itself perfectly to time-critical shipment management and visibility that many of our Automotive customers experience on a daily basis, enabling customer control and transparency.

## AMCO WAREHOUSE MANAGEMENT SYSTEM (WMS)

SUPPLY CHAIN MANAGEMENT

**INTEGRATION AND FLEXIBILITY FOR OUR CUSTOMERS**

AMCO - WMS for the World.

# TIME-CRITICAL

## TIME-CRITICAL, MULTIMODAL AND TIME TRACKED.

AMCO delivers expertise in automotive time-critical transport with real-time tracking, maximum two-hour collection across Europe, worldwide partners, next-flight-out, hand-carry and tooling movement solutions.

### HEAVY TOOLING EXPERTS

We are proven and tested experts in the time-critical movement and relocation of OEM and tier one production tooling, heavy equipment and live tooling, providing on-site crisis support anywhere in the world.

### ON-BOARD SERVICES (OBC)

Working closely as strategic partners, we collect from anywhere in Europe in a two hour window utilising our extensive fleet.

We provide global next-flight-out, hand-carry and virtual hand-carry services for smaller, extremely urgent and high value consignments.

### CUSTOMS CLEARED

We manage customs clearance documentation and the handling of all taxes; and we ensure the safe and prompt arrival of time-critical shipments, keeping you informed of the status of your consignment, every step of the way.

### MULTIMODAL AND TIME-TRACKED

We have advanced capabilities in time sensitive global distribution and expertise in providing live status and tracked logistics solutions by any means of transport – sea, air or land. Our clients include some of the world's most notable organisations. It is by harnessing our partnerships and understanding how our customers' processes work that we are able to provide scalable logistics solutions at an affordable price.

“

**DELIVERING EXPERTISE IN  
TIME-CRITICAL LOGISTICS** WITH  
REAL TIME TRACKING, MAXIMUM  
2-HOUR COLLECTION ACROSS  
EUROPE, NEXT FLIGHT OUT,  
HAND CARRY SOLUTIONS

”

# TIME-CRITICAL LOGISTICS

## **NFO LOGISTICS**

We can provide Next Flight Out (NFO) logistics, to ship urgent consignments with our bespoke Next Flight Out (NFO) service avoiding line stoppages and delays whilst optimising the supply chain. Our International Logistics team are multilingual and are at hand 24/7 to ensure your shipment is delivered on time and in perfect condition.

## **HAND CARRY SERVICE**

AMCO time-critical logistics can include a dedicated Hand Carry Service. Our dedicated staff are able to personally travel with valuable and urgent consignments as their baggage and hand-carry them to the required destination guaranteeing safe and prompt arrival of time-critical shipments.

## **GPS LOGISTICS TRACKING**

Knowing where and when is an important part of time sensitive logistics and here at AMCO we provide tracked vehicles and en-route communications as standard keeping our customer up to date with the when and the where via a dedicated personal planner.

## **INTERNATIONAL COURIER**

Shipping goods by International Courier can be the quickest and most efficient method of sending goods around the world. One of the key advantages of using our international courier service is that the service is door-to-door. AMCO arrange to collect the consignment from the collection address at the specific time of booking and ship the goods internationally, usually by means of road and Air Freight and deliver the goods directly to the recipient at the delivery address.

## **CITY, TOWN OR COUNTRY**

Our global partners are an extension of our own business helping us offer end-to-end leading time-critical logistics solutions across a wide range of time sensitive industries including Automotive, Engineering, Aerospace, MOD, Construction, Tech, Retail and Industrial.

We have advanced capabilities in time sensitive global distribution and expertise in providing logistics solutions by any means of transport – sea, air or land - UK, European, or Worldwide.

# AMCO PARK |

## AMCO PARK IN REDDITCH IS OUR FLAGSHIP 110,000 SQUARE FEET GENERAL AND CUSTOMS BONDED WAREHOUSE FACILITY AND LOGISTICS CENTRE, BUILT TO A HIGH SPECIFICATION ON AN IMPRESSIVE 10.7 ACRE SITE.

Featuring state of the art management systems and exceptional travel networks for land, air and sea freight services.

### THIS MEANS YOU THE CUSTOMER HAVE ACCESS TO:

#### LOCATION

A fantastic location in the transportation heart of the country

#### CUSTOMS BONDED

Why pay duty, when you don't have to?  
Using bonded warehousing allows the deferment of tax until goods are sold, improving cash flow

#### PICK PACK AND DESPATCH

Perfect for outsourcing, stock management, inventory control and reduced costs

#### SEQUENCING

Where JIT is not enough we can provide products in exactly the same order as they are used in production

#### E-COMMERCE FULFILMENT

Harness our Pick and Pack and VNA systems to outsource your order fulfilment

#### INVENTORY MANAGEMENT AND EDI

Our sophisticated Warehouse and Inventory Management System can be integrated as can our supply chain electronic data interchange (EDI) to control processes such as purchase orders, shipment notices, SSCC labelling and invoices

#### FULL LOGISTICAL SUPPORT

We can help manage the procurement and distribution of equipment, facilities, spares, technical information, and people. Locally and globally saving you resources, time and money

#### VNA RACKING

Floor space is better utilised with FLT lifting higher and working faster than standard counterbalance trucks, increasing efficiency and reducing cost

#### CONTAINER HANDLING

Reduce your operational costs by using our expertise and vehicles

#### PACKAGING

AMCO Packaging is now established with a centre of excellence at our Telford Logistics and Transport Hub. From here we source, bespoke manufacture, supply and fulfil packaging solutions

# STATE OF THE ART **AND BREXIT READY.**

## WHAT IS A BONDED WAREHOUSE AND WHY CAN AMCO PARK HELP MY BUSINESS?

AMCO Park is a Customs Bonded facility. This means we can store imported goods on your behalf that attract Import Duty and or VAT.

Duty and VAT are deferred until the imported goods are sold or removed from the warehouse.

### IMPROVE CASH FLOW, TIME AND MONEY

ALL IN ONE STATE OF THE ART  
AND BREXIT READY WAREHOUSE  
AND LOGISTICS FACILITY.

### ARE YOU AN IMPORTER?

Manufacturers for example, import components for assembly or sequencing or undergo manufacturing operations without payment of duty.

### USING AMCO PARK HAS MULTIPLE BENEFITS.

- Deferred payments means no tax is paid until the goods are sold, improving cash flow

### IF YOU PLAN TO RE EXPORT THE GOODS, NO DUTY WILL FALL PAYABLE IN THE UK, ONLY IN THE DESTINATION COUNTRY. NO DOUBLE PAYMENT.

- Improved delivery schedules and customer service can be facilitated by importing and warehousing ahead of peaks in seasonality or demand, making stock available when it is needed
- Customs paperwork for both inward and onward can be handled by our expert team, saving you time and money
- AMCO can provide inward and onward logistics, fulfilment and pick and pack services (as and when the goods are sold and duty is paid)
- Total site security and full traceability
- HMRC Audited. AEO accreditation awarded
- ISO 14001 Certified

# LOCATION LOCATION LOCATION

## AMCO PARK OUR FLAGSHIP BONDED FACILITY IN THE HEART OF THE UK.

### MANAGING THE WHOLE SUPPLY CHAIN VIA AMCO PARK

AMCO UK operate from strategically located logistics and warehouse centres located in the heart of the UK close to arterial transport links and routes. These warehouse facilities offer our customers over 110,000 sq.ft of space with configurations to best suit their individual requirements.

We can offer VNA racking, (Very Narrow Aisle) which has the benefit of better utilised floor space, excellent pallet access and uses specialist wire guided forklift and picking trucks, lifting higher, working faster and more accurately than a counterbalance truck. VNA presents our customers with the opportunity for high density storage with optimised roof height, 100% stock access and good stock rotation and stock damage reduction attributable to wire guided systems.

If it's floor storage, pick and pack and despatch that is the requirement, then we have the space for your stock and the teams to fulfil any type of non-temperature-controlled goods.

We can offer static or mobile shelving, standard racking, mezzanine storage and wire cage partitions or just hall floor space. We have over 20,000 pallet locations all managed by our state-of-the-art Warehouse and Transport Management systems.

**A WELL-DESIGNED SPACE,

LOCATION WITH TRAVEL  
NETWORKS FOR LAND, AIR AND SEA  
FREIGHT SERVICES. AMCO ARE  
THE PERFECT PREMIER WAREHOUSING  
AND LOGISTICS PARTNER.

**Paul Andrews** - Chief Executive Officer

# AMCO TOOLING SERVICES: **FULL END TO END SOLUTIONS**

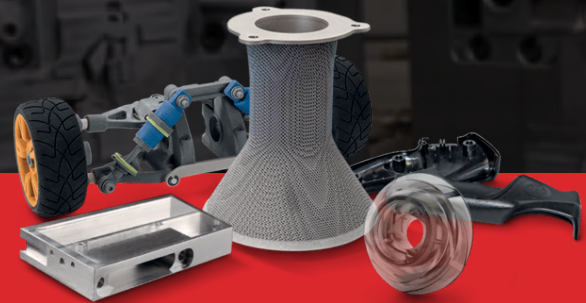

The AMCO Services business has been servicing the global logistics needs of international organisations, 1st and 2nd tier manufacturers and OEMs across Automotive, Aerospace and Defence for over 35 years. Part of our services to these customers has included tool movements from world-wide manufacturers to the end users manufacturing facilities. Often complicated and time critical, AMCO has mastered handling and shipping, customs clearing and all the complex processes involved in a successful shipment of often very valuable tooling.

These sectors of customers recognise the AMCO skill, expertise, care and consideration when shipping these often complicated pieces of tooling. Logic is at the heart of everything AMCO – and the AMCO Tooling division now handles the end to end tooling proposition that can be of benefit to many customers.

## **TOOL PROTOTYPING AND MANUFACTURE**

We have the expertise and capacity to build both Low Volume and Serial tools and have a partnership with Internationally renowned and respected 3D Systems who produce our 3D models and prototypes. Our tooling team can provide full Purchase Order to Part delivery services using the extensive AMCO UK teams and our UK and China based manufacturing and support partners.

We are able to provide a full range of plastic injection molding services, including design, tooling, molding and assembly and where required Moldflow design analysis, and even parts production. Amongst our recent contracts are notable customers including Lear Corporation and Morgan Motor Company.

**AMCO Tooling are probably unique in the market with a tooling service that includes our ability to fund tooling builds offering competitive and flexible payment terms to PSW (Part Submission Warrant) and amortisation options.**

“

PRODUCTION CAPACITY  
OF **OVER 1500 TOOLS**  
P.A. ACROSS OUR SUPPLY BASE

”

# PARTNERS AND **SUCCESSFUL CUSTOMER RELATIONSHIPS**

**TRUE PARTNERSHIPS ONLY EXIST WHERE THERE IS A WILLINGNESS TO SHARE AND LEARN FROM EACH OTHER AND WHERE THERE IS REAL MUTUAL BENEFIT. THESE ARE THE TYPES OF RELATIONSHIPS AMCO WANT AND ARE KEEN TO DEVELOP.**

Partners are key to being a successful provider of third-party logistics (3PL or TPL) and supply chain management comes down to the businesses ability to identify engage and work with third-party organisations to outsource elements of their distribution and fulfilment proposition to best serve their customer needs.

“

**AMCO HAVE GONE FURTHER AS A BUSINESS BY DEVELOPING PARTNERSHIPS THAT CAN ADD MEASURABLE EXTRA VALUE TO OUR 3PL LOGISTICS AND SUPPLY CHAIN OFFERING**

”

# TRUE PARTNERSHIPS

## IT PARTNERSHIP

We recognised the opportunity and became an early adopter with our Think It Warehouse Management System developers by investing in their business and using our own national warehousing facilities to test and develop the Warehouse Management Systems (WMS) packages. These systems are at the core of what we do today in our own warehouse facilities, and also are systems that we can flex, develop and resell to our existing customers.

## QUALITY PARTNERSHIP

CK Quality have been providing inspection and containment services to the manufacturing industry for over 15 years and operate from centralised headquarters in Coventry in close proximity to AMCO's 391,834 sq. ft bonded warehouse facility AMCO Park and our Redditch Regional Distribution Centre. This is a value add service offering on-site quality inspection, containment and rework of parts, electronics and components.

## PLASTIC INJECTION TOOLS

AMCO have expanded our service offering to the Automotive and Aerospace engineering industries by adding to our portfolio plastic injection mold toolmaking and steel stamping toolmaking. Our partners Patterson and Rothwell are accredited with ISO 9001 and TS16949 and have been Plastic Injection toolmakers for over 25 years. P&R are a plastic injection molding specialist manufacturer with in-house tooling design and tooling manufacturing using their own tool room and toolmakers.

## 3D MODELLING

3D Systems, who create our 3D models and prototypes, have 88 digital 3D printers across 22 locations in the UK and Europe. They are able to 3D model and print in plastics such as nylon and metals such as titanium.

They specialise in the quick turnaround of 3D printed prototypes, low volume manufacturing in specific materials and on demand appearance models.

# AMCO PACKAGING THE COMPLETE PACKAGE

The demands from our customers became the driver for us to look to fill a market gap and our specialist packaging division was created to fulfil that need.

Logistics customers were asking AMCO how best to satisfy their supply chain end-to-end needs – transport, shipping, warehousing and packaging. There was a clearly defined need for us to manage the whole supply chain under one agreement and with one team. This offers synergy, flexibility and better communications, reduced investment, and financial commitment and in turn, improved supply chain performance.

We are now established with a centre of excellence in packaging at our Telford Hub. Here we are able to source, bespoke manufacture, supply and fulfil packaging solutions from standard plastic packaging to bespoke metal stillages and roll cages, corrugated standard and bespoke lineside delivery and export boxes and for example: sub assembly of customers packaging components into a consignment box for shipping.

## OUR SERVICES BEYOND PACKAGING

We are able to offer bespoke solutions and as well as supply; we can recycle existing packaging, repair and rework existing packaging and we offer a strip down and repack service.

- METAL CONTAINERS
- PLASTIC CONTAINERS
- CARDBOARD PACKAGING
- BESPOKE SOLUTIONS
- PALLET SERVICES
- RETURNABLE PACKAGING SOLUTIONS
- ROLL CAGE
- VACUUM FORMED TRAYS
- FOAM PACKAGING
- REPAIRS AND REFURBISHMENT
- REPACKING AND REWORK
- FINANCE OPTIONS

“

REPAIR AND REWORK

”

# LOGISTICS **CONSULTING**

**LOGISTICS CONSULTING IS ABOUT KNOWLEDGE, EXPERTISE AND PARTNERSHIPS THAT CAN HELP NAVIGATE CUSTOMS AND CULTURE, LAWS AND TRANSPORTATION CHALLENGES.**

## **LOGISTICS CONSULTING FOR YOUR WORLD**

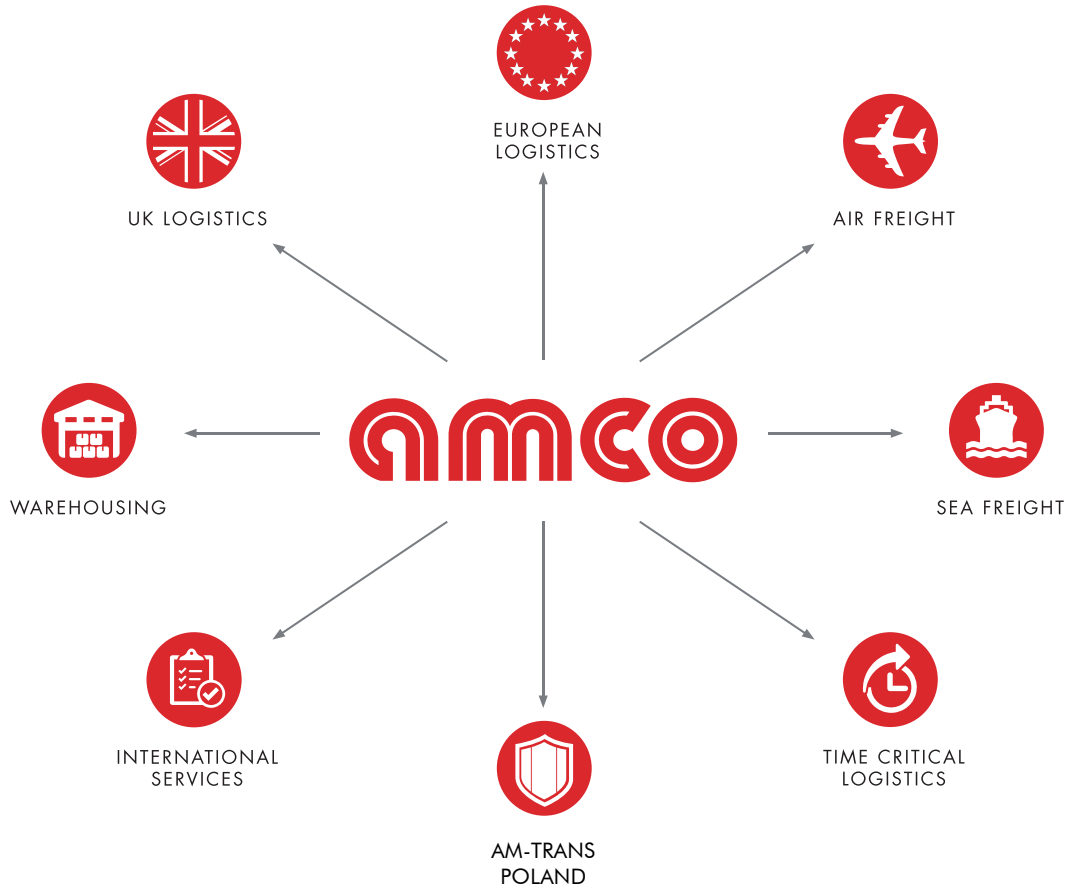

Logistics Consulting is about knowledge, expertise and partnerships that can help navigate customs and culture, laws and transportation challenges across the logistic value chain; anticipating issues, developing tactics and strategies that mean our AMCO customers deliver on time and with pride.

Today, we are able to offer a suite of logistics consultancy services from regulatory advice, incoterms analysis and management, sourcing and procurement, PPAP (Production Part Approval Process, an automotive quality process), Commodity code verification (classification for duty or VAT) 3PL solutions, difficult or hazardous cargo movement as well as inventory management, import and export advice and JIT / JIS.
